### 2.75 Per Cent Beer is Held Illegal By Court

#### "SLUSH FUNDS" OF TWO PARTIES WILL BE USED BY "REDS"

Nearly 5000 Have Been Taken By Dept. of Justice Men.

By Associated Press Leased Wire  
Washington, D. C., Jan. 5.—Radicals taken in the government raids on the Communist and Communist Labor parties have all machinery set for fighting desperately against deportation. It was announced today at the Department of Justice. Lawyers have been engaged in practically every city where Reds were taken and said they would take advantage of every technicality until their clients actually were aboard the deportation vessels.

**Orders Speedy Trials.**  
In view of this information, Assistant Attorney General Garvan gave instructions to speed the work of completing the evidence with which he hopes to make deportations certain. Assembling of the data presents the most difficult problem immediately confronting the government, officials said. Mr. Garvan said that while the government believed proof of membership in either organization to be sufficient basis for deportation, there must be considered the likelihood that many of the persons held might attempt to show they renounced affiliations prior to the government's declaration that the entire alien membership of the Communist and Communist Labor parties were deportable subjects.

Habeas Corpus proceedings will be employed in a majority of the cases, Mr. Garvan believed.

**Bail Privileges Hamper.**  
Privileges accorded the radicals under present laws with respect to bail also complicates the department's work, officials said. Persons held on such charges as have been filed against those taken into custody in these raids may gain freedom on \$1,000 bond. But the two parties which the department is attempting to disperse, are known to have a "slush fund," Mr. Garvan declared, and large amounts of this have been made available for legal defense and bail.

**Very Influential Red Taken in New York**

By Associated Press Leased Wire  
New York, Jan. 5.—Gregory Weinstein, chief of staff for Ludwig C. A. K. Martens, self-styled ambassador to the United States of the Russian Soviet republic, was on a deportation warrant by agents of the department of justice. Weinstein, according to department of justice officials, is the most influential Russian Communist, next to Martens, in America.

Weinstein was taken into custody at the Russian Soviet embassy where he was head of the diplomatic department. An exile from Siberia, he arrived here with Leon Trotsky, Russian Soviet minister of war, a few years ago, and is his close personal friend. He was formerly editor of the Novy Mir, the organ of the Russian Socialist Federation.

**5,000 in Toils; Are Searching for More**

By Associated Press Leased Wire  
Washington, Jan. 5.—Although nearly 5000 persons have been arrested since the latest radical roundup was started last Friday night, the department of justice agents over the country still were seeking out today members of the Communist and Communist Labor organizations who thus far had escaped the general dragnet.

Apparently New York and Chicago were the chief centers of activity. Several hundred warrants were yet to be served in the metropolises.

**3,000 For Deportation**  
Nearly 3,000 of those arrested have been held for deportation proceedings and because of the congestion now at Ellis Island, all of them cannot be concentrated there.

Congress had before it today the request of Attorney General Palmer that it take prompt action on a bill proposed by him several months ago and designed to enable the government to deal with citizens found to be engaged in radical activities.

#### INDICATES U. S. HAS WITHDRAWN FROM COUNCIL

Ambassador Wallace Makes Unusual Request of Body.

**BULLETIN.**  
By Associated Press Leased Wire  
Paris, Jan. 5.—Hugh C. Wallace, the American ambassador was reported yesterday to have asked the supreme council of the peace conference to change the formula referring to the powers participating in the council from the "allied and associated powers" to the "allied powers." This report was not strictly correct, it was learned today.

Ambassador Wallace, it is stated, has not asked for the term "allied and associated powers," but merely requested that, when questions arose which involved the United States, this formula, including the United States, be not used in documents until he had time to get a decision from Washington on such questions.

By Associated Press Leased Wire  
Paris, Jan. 5.—Hugh Wallace, American ambassador to France, has asked the supreme council to precede future decisions of the council with the formula "allied powers" instead of "allied and associated powers," which has been used in the past, according to the Echo de Paris.

"This," says the newspaper, "marks the determination of the United States not to participate officially in decisions to be reached in Paris. Washington, while declining the responsibilities of the supreme council, continues to be represented at its sessions. How can Mr. Wallace's role be defined? He is not a plenipotentiary, witness or observer is the accepted term."

**Can't Sign Protocol Tomorrow as Planned**

By Associated Press Leased Wire  
Paris, Jan. 5.—The supreme council this morning finally decided on the wording of the note to the German delegation confirming the verbal statement regarding the indemnity for the Scapa Flow sinkings made to Baron von Lersner by Secretary Dutasta of the peace conference. It is understood that this note virtually reduces the demand for reparation from 400,000 tons to about 275,000 tons of dock and harbor materials.

This note will be delivered at the same time that the protocol is signed. Cannot Sign Tomorrow.  
The signing of the protocol now depends, it is stated, on the answer of the Berlin government to the German delegates on questions concerning the arrangements for the plebiscites provided for by the treaty. It appears certain that these important formalities cannot take place tomorrow as originally intended.

The question of commercial relations between Turkey and the central powers after the exchange or ratifications of the treaty of Versailles was discussed by the council at the morning session and it was decided that the status created by the armistice should continue until peace was signed with Turkey. The armistice terms prohibit such relations.

**LETTISH FORCES PENETRATE REDS LINES ON DVINA**

By Associated Press Leased Wire  
Copenhagen, Jan. 5.—Despatches from Riga today declare that the Lettish forces have broken the Bolshevik front along the Dvina. Numerous prisoners have been taken, together with much booty, it is asserted.  
Two divisions of Lett, supported by Baltic landwehr, attacked the Bolsheviks on a wide front, the despatches say. Very heavy fighting followed, resulting in a penetration of the Bolshevik positions on the first day. The attack was pressed, the Red lines pierced and the Dvina crossed. The advance continues, the Bolsheviks retreating rapidly.

#### UNIVERSAL TRAINING—OR DO YOU WANT YOUR WATCHMAN ARMED LIKE THIS?

#### MINERS MEET TODAY TO DISCUSS STRIKE SETTLEMENT DETAILS

Will Arrange to Put Their Case Before Wilson's Commission.

By Associated Press Leased Wire  
Columbus, O., Jan. 5.—More than 2000 delegates representing the 400,000 soft coal miners of the United States were assembled here today for the convention which is to discuss the settlement of the nation wide strike, terminated on Dec. 10 by a truce proposed by President Wilson, which gave the miners a 14 per cent advance in wages. Plans are also to be formulated for presenting to the committee of three men appointed by the president to consider all matters in dispute, and report within 60 days final terms of settlement.

John P. White, one of the members of the miner's commission, was here today to attend the convention and to obtain from the miners direct, their attitude in the controversy before taking up with the scale committee in Washington next week hearings on the miners' demands.

**"Protested In Hearts."**  
Reports on the settlement of the recent strike of soft coal miners of the United States were made today to the convention of the United Mine Workers by Acting President John L. Lewis and Secretary William Green.  
The report declared that officials of the Union had "decided to submit to the inevitable, though protesting in our hearts against what we believed to be the unjust attitude of the government."  
The action of the officials in ending the strike, miners' officials said, is not subject to action by the convention, although it was expected some delegates (Continued on Page 6.)

#### Victor Praises His Opponent's Ability

By Associated Press Leased Wire  
Geneva, Jan. 4.—A tribute to Field Marshal von Kluck commander of the right wing of the German army in its advance upon Paris in 1914, has been paid by Marshal Joffre, who is visiting the little town of Aigle, just west of St. Maurice.

"Masterly tactics in the retreat from the Marne, while they did not stem the tide of defeat, saved the German right wing from complete disaster," he said. "The enemy was able to retire with only small losses and it was von Kluck who prevented an overwhelming catastrophe."

While he strongly condemned the German soldiers for their conduct during the war, Marshal Joffre stated he admitted their bravery.

#### YOUNG CHICAGO SOCIAL WORKER HAS DISAPPEARED

Hull House Officials Are Seeking Jeanne de Kay, Aged 20.

By Associated Press Leased Wire  
Chicago, Ill., Jan. 5.—Miss Jane Adams today had two clues to aid her as she continued her search for Miss Jeanne Anna de Kay, a social worker who disappeared from Hull House last Tuesday night. One of the clues was furnished by a negro who said he saw a young woman answering Miss de Kay's description, enter a South Side car yesterday. The other comes from Miss Clara Balter, a teacher, who said she saw the girl on a south side elevated train last Friday.

Miss de Kay was ambitious and dissatisfied with her own achievements, according to Miss Adams and may have left the Hull House simply to try out her abilities and to prove herself.

The missing girl is the 20-year-old daughter of John Wesley de Kay, former editor of a Waukegan newspaper, playwright and millionaire who also was a supporter of Huerta's provisional government in Mexico.

#### Use of Sugar as Bait to Sell Other Goods Held "Unfair"

By Associated Press Leased Wire  
Washington, D. C., Jan. 5.—The federal trade commission today held that the selling of sugar in combination with other goods to force purchasers to buy other things in order to obtain sugar was an unfair method of competition and ordered the Cole-Contad Company of Chicago to cease the practice. The Chicago case was one of many similar complaints which had been lodged with the commission, it was stated.

#### DELEGATES TO MEET TONIGHT TO DECIDE ON CONVENTION PLAN

Chairmanship and Organization to Be Discussed This Evening.

By Associated Press Leased Wire  
Springfield, Ill., Jan. 5.—Chairmanship of the constitutional convention, which will convene at the state house at noon tomorrow, will be discussed tonight at caucus of republicans and at a conference called by downstate members of the convention.

Members who called the conference declare they are opposed to any partisan action by the convention. Those favoring the caucus also disclaim any intention to inject partisanship into the convention and say the alignment in the chairmanship contest will be between the Chicago delegates and the downstate representatives. There are sixty-four downstate delegates in the convention and thirty-eight from Chicago. The call for a republican caucus was issued by Justus Johnson, of Aurora, secretary of the republican state committee. Mr. Johnson said forty-eight republican members had written him asking that a caucus be called. Both the conference and the caucus will be held at seven p. m. at a hotel and it is considered a possibility that the two groups will reach an agreement during the evening.

Cicero J. Lindley, of Greenville, is considered as the probable chairman of the caucus.

There are a number of candidates for the chairmanship of the convention. State Senator Edward C. Curtis, of Grant Park and Wm. E. Trautmann, of East St. Louis, have been active since their arrival and have been most prominently mentioned by those members who favor the selection of a downstate man. David E. Shanahan, speaker of the house of representatives, is considered as a delegate by the Chicago members.

#### SHONS PREPARES TO BEGIN BRIDGE WORK

Contractor W. H. Shons, of Freeport, spent this morning in Dixon making arrangements to start the repairs on the Galena avenue bridge. He expects to begin shipping supplies to Dixon in a few weeks for this work. A small frame building will be erected near the bridge where a great deal of the material will be stored. The contractor expects to start on the bridge just as soon as the weather conditions will permit.

Mrs. Wm. Heibenthal and daughter, Miss Ada, and Miss Vera Thome were shoppers today from Ashton.

#### SUPREME COURT IS SPLIT 5 TO 4 ON ALCHOL PER CENT

#### STANDARD OIL CO. TO ERECT NEW BUILDING

\$15,000 Structure Will Be Built on North Galena Ave.

E. B. Gray, of Joliet, superintendent of the Standard Oil company's service stations in this district, was in Dixon today, closing a deal for the purchase of property on Galena avenue and Boyd street on the north side where a new service station is to be erected. The company has purchased through Geo. Pruin, the southeast corner lot which is 50x90 feet in dimension of William Ford and the heirs of the late I. E. Edwards estate, the deal being consummated this morning.

Superintendent Gray stated that the company contemplated an investment of not less than \$15,000 on this site. As soon as the weather will permit, the work of erecting one of their latest type of filling stations will be started. The building which will be of cement and stucco finish, will be erected on the east part of the lot, with a crescent shaped double driveway with both entrances on Galena avenue. The drives will be paved with concrete and it is anticipated that it will require two years before the station is fully completed.

**To Be Of New Type.**  
The present two-story brick dwelling is to be torn down and the lot planted with shrubbery and shade trees. The filling station will be an entirely different type of building than the present station on Galena avenue and Third street, which was one of the earliest designs adopted by the company. It will be somewhat more elaborate in construction and when completed, will be a great improvement in this neighborhood.

The demand for automobile oils on the Lincoln Highway here has grown to such an extent that the company has been unable to care for all of the trade at the one station. The real estate department has been looking for a suitable site on Galena avenue for many months for the erection of another station and the purchase of the property this morning will not only add to the beauty of the surroundings but also to the convenience of automobile owners.

#### COALITION GOVT. IN BRITAIN GETS BLOW IN ELECTION

Success of Laborite Candidate is Given Significance.

By Associated Press Leased Wire  
London, Jan. 5.—Great Britain's coalition government suffered the worst blow as yet dealt it in the election of Simon, Liberal, in the parliamentary bye-election in the Spen valley district of Yorkshire, according to newspaper opposing the cabinet.

Significance is seen in the Spen valley result by all newspapers here which point to many indications of growing laborite strength. Conservative and coalition journals while recognizing remarkable progress by the labor forces, profess to see a current against the present government rather than in the direction of a general election.

Prospects of a turnover in votes resulting in a labor government are discussed in connection with the statement made Saturday night at Sunderland by Winston Spencer Churchill, who said laborites were "unfit to govern." Mr. Churchill's challenge is taken up by John R. Clynes, laborite leader and former food controller, in the Daily Mail. He contends Mr. Churchill has failed, but that labor has succeeded in handling great undertakings. Mr. Clynes declared he would regard Mr. Churchill's statement "offensive if it were not so funny."

#### Decision Given Today in Suit on Alcohol Percentage.

By Associated Press Leased Wire

Washington, Jan. 5.—The prohibition enforcement act, defining as intoxicating any beverage containing one-half of one per cent or more of alcohol was declared constitutional today by the supreme court in an opinion on which the court divided, five to four.

Proceedings brought by Jacob Ruppert, of New York to enjoin the government for prohibiting the sale of 2.75 per cent beer were ordered dismissed.

Ruppert's case was brought under the wartime act. He alleged that 2.75 per cent beer was non-intoxicating, but the Volstead act by limiting the alcoholic content prohibited the sale of beer manufactured under regulations prescribed under the Lever Food Control Act by President Wilson.

**Stop Sale Immediately.**  
Under the war emergency congress has a right to stop immediately the sale of intoxicating liquor, the court held.

Associate Justice Brandeis, who rendered the opinion of the court, said the right of congress to suppress the liquor traffic was not an implied power, but a power expressly granted.

**Court Was Divided.**  
The court divided, five to four, associate Justices Day, Vandevanter, McReynolds and Clark dissenting.

Justice McReynolds in a dissenting opinion said that the 15th amendment had not yet come into effect and that the amendment had no general power to prohibit the manufacture and sale of liquor.

He took the position that the war emergency under which national prohibition was made effective had passed.

#### OTHER PROCEEDINGS.

Washington, Jan. 5.—The government today filed in the supreme court its answer to the application of the state of Rhode Island for permission to institute original proceedings to test the constitutionality of the national prohibition constitutional amendment.

At the same time Attorney General Thomas F. McCran, of New Jersey, asked dismissal of similar proceedings brought on behalf of the Retail Liquor Dealers' association of New Jersey to enjoin state and federal authorities from enforcing the amendment in that state. A brief in support of the association's case also was filed by counsel for the organization.

Attorney General McCran reiterated the contention made by the governments in its reply filed last July that the supreme court had no jurisdiction in the New Jersey case.

**"Regulate Private Lives."**  
In the brief filed in support of the application in the New Jersey case, it was contended that the supreme court had jurisdiction and that the prohibition amendment was different from other constitutional amendments, "in that it assumes to regulate the private life of citizens."

If the procedure of enactment was valid, the brief asserted, it follows that "a bare two-thirds of a bare majority of the membership of the two houses in congress and a bare majority of the state legislatures can constitutionally adopt any amendment to the constitution which they may desire."

**"Arbitrary Power."**  
"In other words," it continued, "a group of public officials hold in their hands the constitution of the United States and the property, the liberty and even the lives of 110,000,000 of people. Their power, if the 'eighteenth amendment' has been constitutionally adopted is absolute and arbitrary beyond that of any group of men known to history."

Solicitor-General King in his brief alleged that the state of Rhode Island failed to state facts warranting original proceedings. If the case is one that should be instituted, he added, the federal government should be named as defendant, but that could be done only with consent of the government.

Under an agreement of counsel, arguments on the Rhode Island and New Jersey cases will not be heard until next Monday.

#### CHICAGO DOCTOR TO HOLD CLINIC HERE

The Board of Directors of the Leo County Tuberculosis Sanitarium will have a special clinic, to be conducted by Dr. Robert H. Hayes, of Chicago, in the court house here on Wednesday, Jan. 7th. The clinic opens at 1:30.

## THIRD OF STEEL STRIKERS STILL STICKING IT OUT

**At Same Time Steel Co. Officials Boast Normal Output.**

By Associated Press Leased Wire  
Pittsburgh, Pa., Jan. 5.—Fully one-third of the estimated 350,000 steel workers, who obeyed the order of the National Steel Strike committee, Sept. 22 last, are still on strike, say the strike leaders. Yet the employers assert that the mills and furnaces of the Carnegie Steel Company, the principal interest against which the strike was directed, as well as mills and furnaces of independent companies, are in steady operation with virtually a normal force of workmen.

In recent weeks strike headquarters in this city has devoted its time to keeping in line the men who had not gone back to work, and to caring for the destitute, while the steel companies have been busy building up their forces and increasing production.

"We have dug in and are biding our time," say the union leaders when asked concerning their plans for the future.

"We are going along as usual, making and selling steel," say the employers in answer to a similar question.

W. Z. Foster, secretary of the National Steel Strike committee, is in charge of headquarters here, and receiving reports from organizers in all parts of the district who are charged with the duty of preventing desertions.

Another section has been organized to provide food for needy strikers and their families. Canteens have been opened, and every week food is distributed. As the strike lengthens the number of persons in need of relief increases, but officials of the committee insist they have met every call made upon them.

Efforts to obtain the exact number who are still out have been unsuccessful, as the strike leaders have been unable to determine the exact number of men who have entered other industries, the number who have returned to their old places in the mills, or the number who have returned to their native land. Their best calculations, however, place the number still on strike at more than 100,000.

This position is supported by leading independents who declare that the unskilled labor situation in the industry is serious, and men for this class of work is hard to find.

The Carnegie Steel Company, however, has no complaint on this score. Its records for the third week in December, the last reports available, showing 51,000 men on the payroll as against a normal force of 52,000.

Meetings of strikers now are permitted if sanctioned by local authorities.

## Seventy-four Lives Lost in Great Lakes During Season of 1919

By Associated Press Leased Wire  
Cleveland, O., Jan. 5.—Nineteen ships, sixteen steamers and three barges were lost on the Great Lakes during the season just closed and seventy-four lives were lost on boats that foundered or were pounded to pieces, the greatest life and property loss on the lakes since 1913 when 29 vessels, valued at \$3,313,000 and 254 lives were lost, most of them in the big gales that swept the lakes from Nov. 9 to 11, including "Black Friday" six years ago.

The greatest loss of life during the past season was when the steamer John Owen with a crew of 22 and the steamer Myron with seventeen men went down, both on Lake Superior. Nineteen lives were lost when the passenger steamer City of Muskegon hit the pier at Muskegon and pounded to pieces. The steamer Homer, Warren was lost on Lake Ontario with a crew of nine and seven lives were lost on the barges Dundurn and Quebec, which were wrecked on Lake Erie and at Port Colborne.

The greatest property loss during the past season was on the steamer D. R. Hanna which was sunk in Lake Huron last May in a collision with another steamer. The Hanna which had a carrying capacity of more than 10,000 tons had a cargo of about 380,000 bushels of wheat when she went down. She was insured for \$430,000.

The boats that were lost in 1919 were valued at \$1,335,500. The D. R. Hanna being the only modern ship lost during the season, the tonnage of the other lost ships ranging from 500 to 4,200.

## THE WOMAN WHO LOVED--AND EARNED

By JANE PHELPS

A Modern Story of Home and Business

### FRICASSED CHICKEN--AND A BOX OF CANDY.

CHAPTER 25.  
Aunt Felicia had declared she "had nothing more to say," but I found I must not take her too literally. She was a widow, and her experience must have been an unpleasant one because she was soured and critical of life to a degree I have never seen equaled. Yet she had her good points also, and I honestly tried to forget everything but that she was Robert's aunt, and to do my best to make her visit with us a pleasant one.

Naturally, she was compelled to be alone much of the time. But Robert and I made plans for her entertainment, and each day gave her a list of points of interest she could visit. Then in the evenings we devoted ourselves to her, refusing all invitations to the Woods's or Murphy's, and inviting no one to spend the evening with us, as Robert's aunt disapproved of both cards and dancing.

One evening Robert did not come home to dinner. I spent the evening alone with her. Never before or since have I been so thoroughly miserable. Aunt Felicia was one of the most curious women I even have met, and had no compunctions about satisfying that curiosity. She asked the most personal questions just as if she had the right, and if I tried to evade them she would keep on quizzing me until she had learned what she wanted to know.

"You are very fortunate to marry my nephew," she remarked, "family counts for so much. My own married life was very unhappy. I married a man whose people didn't amount to much."

"But one doesn't marry an entire family!" I objected.

"Blood will tell!" was the sententious answer.

She questioned me about my salary, also my own. She showed some surprise when she found mine was so much the larger of the two, but in no way depreciated Robert because of it. She asked about our friends, their habits and finances, and seemed to think me lacking in some way when I told her I never questioned people about their personal affairs. By the time Robert came in—about 10 o'clock—I was completely worn out.

"I was so glad to see you," I told him when we were alone.

"Why so particularly glad to-night?"

"Oh your aunt questioned me about you, myself, and every one we know! I have answered or evaded until I am worn out. Please don't leave me alone with her again while she remains."

"Nonsense! It is good for you to have company when I am out."

"But you don't have to be out, and please do as I ask."

"Oh, very well! She won't stay forever." His answer was so indifferent, so unlike Robert that I felt hurt. He was becoming very difficult, I some-

times hardly knew him for the gay, lappy Robert I had married.

"Where did you have dinner Dear? At Marion Hovey's?" I do not know why I asked him if he had been at Marion's. I never had done so.

"Yes, I called her on the telephone and she said they were to have fricassee chicken for dinner and asked me if I didn't want some. I grabbed her up quickly, I can assure you. I am so everlastingly sick of this grub that I would go anywhere to eat if I had an invitation."

I wondered what he had to say that he needed to telephone Marion, but his tone precluded further questioning. I would not imitate his aunt, I thought, as I repressed the desire.

"Did you enjoy the dinner?" "Did I? You should have seen me eat, I was so ashamed of my appetite that I stopped at the drug store on my way home and ordered a big box of candy sent to Marion."

"That probably cost more than your dinner," I said, hurt because he had not brought me candy for some time.

"Perhaps, but not worth more than to go and sit at a table where everyone

## Heavyweight Fight May Be Staged in Lower California

By Associated Press Leased Wire  
Los Angeles, Calif., Jan. 5.—Jack Dempsey, world's heavyweight champion, today referred to his manager, Jack Kearns, all inquiries about his prospective match with Georges Carpentier of France, European champion, which, Kearns announced last night, would be staged at Tijuana, Lower California under the auspices of James W. Coffroth, if Carpentier would agree. Kearns said Coffroth, president of a racing association at Tijuana had offered a \$400,000 purse for the match. Kearns stated Coffroth had an agent, Charles Harvey, in Europe attempting to induce Carpentier to sign a contract to meet Dempsey at Tijuana. Kearns said he thought such a match would draw gate receipts of \$750,000.

### HAD OPERATIONS.

Miss Fay, North Dixon High school Latin teacher, underwent an operation for the removal of tonsils at St. Luke's hospital, Chicago, last week.

**Ford**  
THE UNIVERSAL CAR

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come—first served. All orders are filled in rotation. So, if you would be forewarned, if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. It is no longer popular to "lay up" your car for the winter. Buy a Ford now, and use it now.

## WHEN YOU LAY YOUR PAPER ASIDE

After you've read the news have you gotten all the valuable information out of it? Not until you have read the advertisements.

Reading the advertisements should be just as much a part of your day as reading the news columns.

The advertisements in your favorite newspaper are a daily record of what your local merchants have laid in store to meet your comfort.

They tell you what the manufacturers of these goods, who are constantly striving to please the great American public, have done to add to your advantages and comfort. The news, while always interesting, may often concern you only in a general way.

The advertisements are almost certain to tell you something that may mean a great deal to your home life or your business and social welfare.

MASON-ENTORF WEDDING—

In a most attractive home wedding, solemnized on New Year's Day, 1920, Miss Rachel B. Entorf and Mayne Seguire Mason exchanged marriage vows in the presence of a large company of relatives and friends. The ceremony took place at the home of the bride's father, L. W. Entorf, in Amboy.

While Miss Ruth Ayers played the Mendelssohn wedding march the bride party assembled in the living room. The bride came in on the arm of her father. Her sister, Miss Lucile Entorf, was maid of honor and Miss Glendora Saguin was bridesmaid. The groom was accompanied by W. H. Huelster, Rev. R. W. Merrifield, of the Congregational church of Sheffield, Ill., was the officiating clergyman. The double ring ceremony was used.

At the close of the service Miss Entorf's beautiful voice completed the service in the song, "The Year's at the Spring."

The bride was charming in a gown of white, Georgette, embroidered with silver. She carried a shower bouquet of white roses, lilies of the valley, and sweet peas. Miss Entorf was gowned in lavender organdie and Miss Saguin in pink and each carried shower bouquets of Ophelia and Columbia roses. The decorations of the house were of smilax and roses.

A two-course wedding luncheon was served in which a pink and white color scheme was attractively carried out.

Mr. and Mrs. Mason left on the evening train for a brief visit at the groom's home in Buda before going to Pittsburgh where they will begin housekeeping.

Until recently the bride was registrar of Polytechnic Preparatory Country Day School at Brooklyn. Previous to that she was a student at the University of Illinois and during the war was engaged in office work there. She has proven herself as capable and efficient as she is charming and lovable. Good wishes from hosts of friends voice good will and sincere regard.

The groom, who is an electrical engineer, was graduated from the University of Illinois. He served during the war as first lieutenant in the Air Service and more recently he has been with Mellon Institute of the University of Pittsburgh. He now takes up work with the Westinghouse International Electric Co. at Pittsburgh, going from there to New York in the near future. His many friends hold him in high regard for his sterling and manly traits of character.

Out-of-town guests were Mrs. A. H. Huelster, her daughter, Miss Ruth Huelster, and sons Raymond and Wallace Huelster, and Miss Julia Entorf, all of Oak Park; Mr. and Mrs. P. N. Mason, of Buda, Ill., parents of the groom; Mr. and Mrs. O. W. Mason, and daughters, Celia and Eunice, G. F. Sweet and daughter, Jeanne, all of Buda, Ill.; and Dr. and Mrs. H. U. Meyers and Miss Alma Norton, of DeKalb.

D. A. R. MEETING—

A pleasant meeting of Dixon chapter, Daughters of the American Revolution, was held at the home of Mrs. O. B. Anderson on Saturday afternoon.

Mrs. Dysart, recent, opened the meeting with the usual exercises. Several communications were read, and, in the absence of several members who were to have taken part in the program, articles were read on various interesting subjects. One was on the restoration

of the home of John Paul Jones, the first naval officer in the Revolutionary war, a movement which the D. A. R. had started before the World War and had many prominent women, wives of high officials, and senators engaged in it. Another article on "When America Harbored a Nephew of Napoleon," read by Miss Pratt, contained much of interest. The remains of this member of the Napoleon family are interred in Tallahassee, Fla. Mrs. Clingman contributed much to the pleasure of the afternoon by favoring with several musical selections on the Victrola. The afternoon ended with a social season, closing the first meeting of the year.

### AMUSEMENTS

### CLEVER MUSICAL FARCE

### COMING WEDNESDAY NIGHT

"His Bridal Night," Margaret Mayo's sensational musical farce, which comes to the Dixon opera house on Wednesday night, January 7th, was accorded the highest praise by the Philadelphia North American when presented in that city last season. The criticism follows: "His Bridal Night" proved to be one of the best farces that Philadelphia has seen in years. The farceful plot provided throughout a long period has been of such humor and character that an invitation to a farce was somewhat to be expected. But "His Bridal Night" proved to be the exception, the reward that comes after a long space of "watchful waiting" for something with a touch of novelty, with the germ of laughter in it. The story is based on the fact that two young gentlemen of wealth are in love with two young ladies who are twins and so much alike that their own relatives have difficulty in telling them apart. One of the girls, who is to be married, has been flirting with her sister's sweetheart, and the sister in revenge impersonates her immediately after the wedding and leaves the young husband. The sister and the young man follow them an idle complications that ensue are many and irresistibly funny.

In the company that will present "His Bridal Night" here are Wm. L. Meehan, who has been in many of the leading comedy successes, the Parker Sisters, vaudeville features of several seasons, who have been selected for the twins of the play, because of their startling likeness to each other; Bertha Julian, Harry Lillford, Charles Bennett, Charlie Grey, Beatrice Lett and others.

## New IDEAL-Arcola Radiator-Boiler

This new and wonderful outfit delivers the pleasantest, health-protecting warmth throughout all your rooms, day and night, all winter long. If freezing days at home have shown you how comfortless and fuel-wasteful your present heating is, consider at once these unequalled benefits and economies guaranteed by IDEAL-Arcola outfits—

**UNIFORM WARMTH**—The IDEAL-Arcola is hollow-walled, and the space between is filled with water. This water absorbs the excess heat of the fuel and automatically circulates through piping to AMERICAN Radiators set in other rooms, warming all alike. The same water is used over and over for years.

**HEALTHFUL**—Unlike stoves, there are no coal-gas leaks into the living rooms. There are no drafty halls or chill spots.

**ECONOMICAL**—The IDEAL-Arcola burns hard or soft coal and brings cost of heating down to lowest notch. The outfit does not rust out or wear out—is a genuine, permanent investment.

**SAFE**—With the IDEAL-Arcola there is no fire-risk to building—no danger to children.

**EASILY PUT IN**—IDEAL-Arcola Outfit is easily put in OLD or new buildings, without disturbing the household. No cellar is needed.

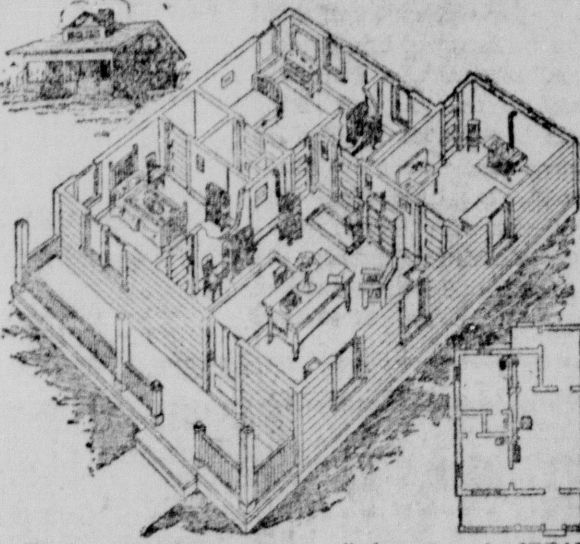

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Protect your home forever and save at the coal-bin—write today

## OUR HUMAN TELESCOPE.

Once upon a time Colonel William Jennings Bryan was America's champion foreseer. He foresaw a general ruin and collapse in civilization unless silver should be coined in the freest and easiest possible way. He foresaw that the retention of the Philippines meant a reign of imperialism. He foresaw that disaster must necessarily follow standing up for America against Kaiserism. And don't forget that he foresaw a million men hopping from their beds to respond to the call to arms. There comes a time when all champions must yield to younger men. So it is that now Attorney General Palmer comes forward as Democracy's cleverest foreseer. He foresees settlement of the coal strike without a rise in coal prices. He foresees an early drop in the cost of living. And we hear privately that he foresees the name Palmer on the White House stationery. We wish Colonel Bryan might be in his old championship form. A battle between the two foreseers would restore the lost gaiety of the nations.

## A MEMORY OF LINCOLN.

One drab morning in 1863 Lieutenant Lancaster, a young officer in the Union Army stood before a firing squad back of the Northern lines.

The grave had been dug, the men of the squad were nervously awaiting command and the restless officer in charge was ready to give the final signal. Not a man in Lancaster's regiment would have given a nickel in Confederate currency for his life, yet Lancaster did not die until the other day at Eau Claire, Wis., where he passed out at the ripe old age of ninety—a worn rider arrived from Washington with a pardon for the doomed man signed by Abraham Lincoln before the execution could take place.

For nearly sixty years Lancaster, who had been sentenced for presenting a petition asking the removal of his commanding officer, was breathing evidence that a man may have one foot inside Eternity's gates and still live and that the legend which has come down from Civil War days of the great Lincoln's infinite capacity for mercy and compassion is not overdrawn.

## THE THRACIAN QUESTION.

The peacemakers have debated nearly a year without reaching a decision as to whether Thrace shall go to Greece or Bulgaria. A definite solution still seems far off, as the American delegates left Paris without making known their views and the Allies are unwilling to proceed without them. Bulgaria rests its case on two claims: First, that the majority of residents of Thrace are Bulgarians, and second, that Bulgaria needs an outlet to the Aegean sea. The first claim is disputed by Greece and the evidence seems to prove that Bulgaria, herself, in concluding an electoral agreement with Greece preparatory to the Turkish elections of 1912, admitted that the Greeks outnumber the Bulgarians in the territory.

The Thracian question is packed with dangerous possibilities. The European war started from a spark kindled in this corner of Europe and it is tempting trouble to continue much longer the delay in settling the dispute.

## SANTA CLAUS CARRANZA.

Some queer things have been given as Christmas presents. There was once a wife who gave her husband a lovely set of lace curtains and never could understand why he wasn't perfectly wild about them. A coolness sprang up that ended in the divorce court when he gave her a peach of a smoking stand on her birthday. Much the same situation is apt to result in Mexico where President Venustiano Carranza had thousands of pictures of himself struck off to present to each officer and enlisted man in the Mexican army. Carranza is more noted for other things than beauty and there must have been some tickled soldiers in Mexican barracks Christmas morning when the soldiers saw what Santa Claus had left them.

## WATCHING PLANTS GROW.

An East India savant has developed a super-microscope by means of which the growth of plants may easily be observed. To the economic botanist, the invention is of enormous importance. For if growth can be studied so that the movement of sap, the building of cells, the breathing of leaves and the feeding of roots can be noted step by step then it will be merely a routine matter to learn quickly and perfectly what plant food is best, what chemicals retard development and what ones stimulate it the most effectively. One small problem before the student today may require a season or many seasons for solution. Think what it would be worth in the mere saving of time to be able to work out the problem in, say, twenty-four hours!

It is noted that the former German crown prince visited the former kaiser on Christmas, and they quarreled. It's not surprising. No doubt they are both irritable.

## Chilean Traffic Rules.

There are no road rules nor speed limits in Chile outside of the cities, but the speed limit in the cities is 25 kilometers (15½ miles) an hour. In the traffic rules of the various Chilean cities there is a lack of uniformity, the Valparaiso regulations requiring an automobile to pass to the right of a coming car, while in Santiago it must pass to the left.

## Acorns as Human Food.

The Indians of the Pacific coast region, from northern California to Mexico, eat acorns in considerable quantities. Dried and pounded they are made into a sort of mush, and also into bread. Acorn meal is usually bleached to free it from tannin and whatever other bitter principles it contains. In certain parts of Italy acorn meal, with the addition of two-thirds ground grain, is made into bread.

## NO MORE CLOTHING AT PRESENT PRICES WHEN SUPPLY IS DISPOSED OF

### Fair Price Committee Says Stocks Were Bought Many Months Ago.

By Associated Press Leased Wire  
Chicago, Jan. 5.—Investigation of the "fair price" list for clothing, issued by the Illinois fair price committee and which out of town merchants declare is lower than the wholesale price, has revealed a deal whereby leading Chicago department stores have done a rushing business in cheaper grades of clothing.

The clothing fair price committee, composed of five officials of the big downtown department stores and others, frankly admits that clothing cannot be bought in the wholesale market to day at the "fair price" set for retailers.

The committee fixed the prices for men's suits and overcoats at \$24.50; women's suits at \$25.00; men's and women's hose at 25c a pair and other articles on a corresponding scale.

The big downtown stores have complete lines of clothing on sale in their "subway" sections at the prices fixed, and have been doing a rushing business.

When merchants from many sections complained "that the fair price list" was unfair, that it made them appear to be profiteers, and that they could not buy clothing at wholesale for the committee's retail price, the Chicago dealers explained.

**Bought Months Ago**  
The clothing on sale here was all purchased many months ago, none being bought within the past six months. The men's suits, for example, are of two classes, cotton and wool mixtures and all wool shoddy.

When the merchants agreed on the "fair price" list each placed a complete line of this class of clothing on sale, regardless of the wholesale cost. After the present supplies are exhausted no more will be available, it is said.

"The big buying power of stores here combined with the fact that they carry very large stocks and take advantage of special bargains in the wholesale market, made this price list possible," according to D. F. Kelly, manager of one of the biggest Chicago department stores and acting chairman of the fair price committee.

"The merchants in smaller cities are right when they say the can not buy now at wholesale at prices as low as our fair price list. We couldn't either. We fixed this list and made a special drive for the man and woman who wants low priced clothing.

"Our store, and the other big downtown stores, have bargain 'subway' basements where they sell this class of clothing. The prices in the subway's for men's suits range from our 'fair price' minimum of \$24.50 to \$40.00.

**Good Suit for \$85.00**  
The cheapest wool suit, moderately well made, on sale in the regular clothing departments today is priced at \$50. The average well dressed business man cannot be outfitted for less than \$75 to \$85 for a suit.

Prices for the class of goods covered by the "fair price" list have increased less than for any other line. The suits we are selling at \$24.50 would have retailed at \$16.00 in 1914, showing an increase of about fifty per cent since before the war. The suit that sells today for \$50.00 would have sold at \$25.00 before the war, giving a 100 per cent increase."

## WHITESIDE ENDORSES LOWDEN FOR PRES.

### G. O. P. County Central Committee Took Action on Candidacy.

Gov. Frank O. Lowden was unanimously endorsed as a candidate for president at a meeting of the Whiteside Republican Central committee last week and Chas. W. McCall a strong Lowden supporter was endorsed as Whiteside's candidate for delegate to the National convention to help put Lowden across. The resolutions endorsing Lowden and McCall are:

Whereas, the Honorable Frank O. Lowden, Governor of Illinois, who had made such an enviable record as executive and business administrator, that it is an honor to himself as well as to the people of the entire state, is now a candidate for the Republican nomination for the high office of President of the United States, and realizing that the nation at this time, as never before needs the services of a statesman of his character and ability to guide us through this troublesome period, and believing that he is strongly favored by the Republican voters of Whiteside County for this office, therefore be it

Resolved, That the Whiteside County Republican Central Committee now in session endorse the candidacy of Governor Frank O. Lowden for President and pledge him our most loyal support.

Whereas, Mr. McCall has long been a faithful counselor and an unselfish worker for the interest of the Republican party, and

Whereas Mr. McCall is a candidate for the office of Delegate to the next Republican National Convention to be held in the City of Chicago, Illinois, in June next, therefore be it

Resolved, That the Whiteside County Central Committee now in session endorse the candidacy of Mr. Charles W. McCall for delegate to the next Republican National Convention from the 13th Congressional District.

William D. Haywood, secretary of the Industrial Workers of the World, announced in a morning paper that he would surrender today. The federal of-

ficers said they did not want to arrest Haywood. States Attorney Hoyne who directed his arrest, made no announcement of the charges against Haywood.

**Haywood Denies Connection**  
"Regardless of recent official statements to the contrary, I wish to say that there has been, is, and can be no connection between the communist party of America and the Communist Labor party and the Industrial Workers of the World," Haywood said.

"The Communist parties are political organizations. The I. W. W. is an industrial organization. Our methods are totally different."

Haywood also said that if the state's attorney sought to invoke the new syn-

dicalist law against strikes, "and I understand he is working toward that end, he will have the fight of his life."

**Labor Denounces Raids**  
The Chicago Federation of Labor yesterday adopted two resolutions against the federal raids. One asserted that the executive board suspected that the raids "were a part of a gigantic plot to destroy organized labor by the employers," and the other that they were "repressions" resembling "czaristic methods in Russia," and "terrorist tactics."

E. N. Nockels, the secretary, charged that the raids were "financed by a slush fund supplied by the capitalists."

The Socialist party also issued a state-

ment deploring the raids against radicals.

## Bolshevism's Back in Detroit is Broken

By Associated Press Leased Wire

Detroit, Mich., Jan. 5.—About eight hundred Red prisoners were in custody of federal officers today after a second raid on the "House of Masses" known to the police as a gathering place of radical organizations. Sunday's roundup added nearly 300 to those taken Friday.

Approximately half of the prisoners had been examined early today and those released numbered less than 50. Arthur L. Barkey, chief of the bureau

of investigation declared the "backbone of Bolshevism" in Detroit had been broken.

## PERSHING GREETED BY CROWDS AT ROCKFORD

Inspection of Camp Grant, Parade and Luncheon There Today.

By Associated Press Licensed Wire  
Rockford, Ill., Jan. 5.—Artillery roared a welcome to General John J. Pershing this morning at Camp Grant, where the commander of the United States army spent the forenoon in an official inspection of the cantonment and a conference at headquarters.  
During the afternoon the general will be the guest of the city of Rockford. Citizens gave a reception and luncheon in his honor this afternoon, which was followed by a parade which will pass before 10,000 pupils of the public schools. A public reception at which the general will be greeted by the "Gold Star" mothers, and American Legion members is on the afternoon program.

General George Bell, Jr., commander of the sixth division, escorted General Pershing from the railroad station to the camp. Before leaving his car General Pershing received newspaper men. He said he expected to complete his tour of army camps and posts about the middle of February and would return to Washington.

**Politics Not Discussed.**  
"I am making a tour for the purpose of being intelligently able to decide on their future disposition and use," said the general.

The tip was out in advance of the newspapers call on the general that politics was strictly to be shunned in the conversation and there was no mention of political subjects.

The conference at headquarters, it was officially announced, was for the purpose of outlining the facilities of the camp, troops now in camp, and methods of administration. General Pershing inspected and reviewed the sixth division provisional regiment and made a tour of the camp and reservation.

Fire broke out in one of the camp buildings soon after the general arrived. General Pershing together with Major General Bell directed the camp firemen in fighting the flames.

## MINERS MEET TODAY TO DISCUSS STRIKE

(Continued from page one.)  
would discuss it.

Governor Cox and the president of the Ohio workers welcome the 2,100 delegates in brief addresses.

Governor Cox made a strong plea for Americanization and endorsed collective bargaining. He warned the miners against revolutionary tendencies and said he was opposed to the two radical elements—the revolutionist and the reactionary.

## Says Mines Are Not Filling Cars Ordered

By Associated Press Licensed Wire  
Chicago, Jan. 5.—Chicago coal dealers who last Saturday appealed to President Wilson for permission to increase their gross margins, fixed by the fuel administration today began charging the increase while waiting for the President's reply.

The dealers notified all customers that coal billed out would be marked up 15 cents a ton.

Indiana and Illinois mines are falling to fill the cars they have ordered, according to M. J. Gormley, assistant regional director of railroads today. From Dec. 16 to Jan. 3 the mines of the two states received 101,859 cars he said. Of this number 89,375 had been ordered by the mines, but they only filled 68,33 or 21,029 less than they ordered.

Gormley issued the figures to answer statements from mine operators that the present shortage was due to failure of the railroads to deliver cars.

W. W. Lehman is in Chicago today on business.

## Additions to National Forests

Prepared by the U. S. Department of Agriculture

Purchase totaling 66,381 acres in the White mountains, the southern Appalachians and Arkansas at an average price of \$3.91 per acre have been approved by the national forest reservation commission, a body created by congress to purchase land on the headwaters of navigable streams for the protection of their watersheds. The action of the commission means that usefulness of the new national forests in the East, the inception of which dates from the beginning of purchase work in 1911, will be greatly increased.

The commission also decided to request, for the fiscal year beginning 1921, an appropriation of \$10,000,000 in five annual installments of \$2,000,000 for

Lost River Issued From Underground. A Scene in White Mountain National Forest, to Which Has Been Added a Large Tract by Recent Action of the National Forest Reservation Commission.

extending purchases. The program contemplated is contingent on the assurance of definite sums being available for making purchases through a period of years. Without such assurance the policy will be to restrict purchases to tracts contiguous to lands already approved for purchase. This policy is dictated in part by considerations relating to the administration of the lands and fire-protection measures. The lands recently approved for purchase bring the total area acquired or being acquired under the act of March 1, 1911, to 1,835,308 acres.

## Scientist Discovers Ears of Only 6 Per Cent Equal

A scientist has just made an interesting statement about our ears. We are most of us aware that our eyes usually vary in strength, but it will be news to many to learn that our ears are unequal in their power of hearing. After careful investigation it was found that only 6 per cent of the folks whose ears were tested could hear as well with one ear as with another. Is it, one wonders, the result of sleeping on one's side? After all, we spend a third of our life in bed.

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody Can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is clumsy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

"Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended as the cure, mitigation or prevention of disease."

## Trees Have Individual Winter Beauty That Is Lost When Leaves Come

Each tree has a special and distinct winter beauty of its own in the outline of branches and stems and twigs—a beauty which is lost to us once the leaves appear, but which suggests an exquisite etching in winter when the dark lines are silhouetted against the sky, writes Flora Klickman, in "Between the Larch-Woods and the Weir." The most graceful is the birch, with its light tracery of fine filaments, often with tassel-like catkins dangling at the end. The oak and beech give the impression of enormous strength in the ease with which they fling outright their massive arms with seldom any tendency to droop. And each tree has its special and distinct melody when the wind signals the forest orchestra; there is the son surge of the beeches; the swish of the heavily plumbed firs; the rain-sound of the twinkling aspens; the soft whisper of the birches; the aeolian hum of the pines; and the sibilant rustle of the dry leaves clinging to the winter oak.

## Lignum Vitae Only Used on Propellers of Vessels

While inspecting the head of a golf club or fitting a caster to the dining room table, few landmen realize that they are handling wood from the West Indian gualacum, or lignum vitae tree, says Popular Mechanics. Fewer realize that this same wood has been used to make propeller shaft bearings for every battleship and ocean liner on the high seas. This wood alone, of the thousands upon the earth, will survive the grinding rotation of the great shafts. The reason is found on examining a lignum vitae log. The sap cells are seen to be full of heavy, solidified resin. Successive layers of fiber are arranged obliquely to each other, making it impossible to split the log.

## High Record in Tobacco Prices.

What is believed to be a new world's record was made at the Owensboro, Ky., tobacco market when Pryor tobacco sold for \$80 a hundred pounds. Burley tobacco also made a record. It is believed when it went to \$80 a hundred pounds.

## Australian Foresight.

A band of youngsters with a pack of mongrels ran a rabbit into a log on a local reserve the other day. An argument ensued as to what was to be done with the rabbit. The genius of the party reasoned thus: "Let 'im go. The more rabbits the more fun for us." This settled it and the rabbit was spared.—The Argus's Jour. at.

## JUST FOR FUN

### Signatures.

"It is a great mistake for an author to sign his work 'Anon,'" remarked Mr. Penwiggle.  
"Yes," replied the press agent; "if he wants to get anywhere financially he'd better take a chance on signing it 'Advt.'"

### Naturally.

"Pop, will you tell me one thing about aviation expenses?"  
"What is that son?"  
"Are they all over head charges?"

### Used to It.

"Our new cook tells me she used to be assistant to a modiste."  
"Thank goodness! Then she'll know how to dress the salad properly."

### Well Stocked.

"Smith took me down yesterday to see how he had fixed up his cellar."  
"Was it cemented?"  
"Sure, and so was our friendship by what he had fixed it up with."

### Impending Retribution.

"The young man who plays the xylophone is ill."  
"Will he recover?"  
"I think not. The doctor attending him lives next door."

### Their Class.

"The grape and the peach are both strenuous fruits."  
"How do you make that out?"  
"The grape has plenty of pluck and the peach lots of pull."

### Out by Command.

"We used to have midnight lunches at home, but we've given them up."  
"Began to bother your digestion, I suppose."  
"No, the maid objected to our having them."

### Marriage Rite.

Not until the time of the reformation was marriage a rite to be sanctioned within the church. Prior to that the ceremony was performed at the church door.

## Charmed Names Featured in Milton's Poems Which Appeal to Many Readers

Scarcely any passages in the poems of Milton are more generally known, or more frequently repeated, than those which are little more than muster-rolls of names. They are not always more appropriate or more melodious than other names. But they are charmed names. Every one of them is the first link in a long chain of associated ideas. Like the dwelling-place of our infancy revisited in manhood, like the song of our country heard in a strange land, they produce upon us an effect wholly independent of their intrinsic value. One transports us back to a remote period of history. Another places us among the novel scenes and manners of a distant region. A third evokes all the dear classical recollections of childhood, the schoolroom, the dog-eared Virgil, the holiday, and the prize. A fourth brings before us the splendid phantoms of chivalrous romance, the trophied lists, the embroidered housings, the quaint devices, the haunted forests, the enchanted gardens, the achievements of enamored knights, and the smiles of rescued princesses.—Ma-caulay.

**The Old Roman Household.**  
In the days of old Rome the culinary department of an elegant establishment boasted pans lined with silver and pails of various descriptions richly inlaid. There were egg frames that would cook twenty eggs at once, and pastry molds shaped like shells, and an infinite assortment of griddles, frying pans, cheese graters and tart dishes.

## TWO CARS OF ICE WRECKED SATURDAY

Two Northwestern box cars loaded with ice taken from the Watson field east of Dixon, were almost reduced to kindling late Saturday afternoon when, while the local switching crew was pulling a string of cars loaded with ice out of the yards near the east end ice house, the trucks of one of the cars left the track.

The car that followed was also derailed and considerable of the track was torn up before the train was stopped. Both derailed cars ran onto a bridge and toppled over into the ditch. The heavy cakes of ice broke through the roofs of both cars. The wrecking crew from Nelson came to Dixon yesterday afternoon and removed some of the wreckage while the local section crews repaired the tracks. Both cars were damaged to such an extent that they will not be salvaged.

## Dramatic moments from four great stories!

**S**UDDENLY, round the corner whirled a shabby old depot hack; it was plainly empty, but the well-known negro driver seemed to be in a desperate hurry. He lashed the horses to a run. "Wonder who's going" to miss his train to-night," laughed Mr. Ludlum.

But the driver turned in to the Ludlum curb, threw his weight backward and checked the horses so sharply that they slid, and their shoes scratched sparks from the stone.

The driver stood up in his pulpit and shouted at the post.

"Oh, Miz, Ludlum, your boy's drowned."

Then he struck out with his whip; the horses plunged, the hack careened round the next corner and was gone.

**T**HAT'S cheap and noisy melodrama," he scoffed, albeit a bit worriedly. "What do you mean?"

I mean just this, "she said: "Life is not worth the living without you. I came here to claim my rights. If you refuse me those rights, I'm not going on living. And I shall end things here and now, I have thought it all out. And I've come, ready," she finished, with a slight gesture toward the hand-bag she carried on her wrist. "I am not bluffing, Rolf. You have deserted me. You'll take me back, or there will be a human sacrifice here to adorn your wedding-night. Make your own choice."

The man felt a twinge of physical nausea at her flamboyant threats and at a memory they evoked.

**S**OMERS suddenly came to action. He jerked a revolver from his pocket, and there was a spurt of flame, the bullet slashing by my ear.

The frightened mare swerved and reared perilously near the edge of the road. Choked with rage, I tugged at the reins, keeping my eyes on Somers. There seemed no escape, and I couldn't even curse. I opened my mouth to shout; but the sudden rush of blood to my head caused a warm trickle in the very center of my forehead.

Somers instantly perceived it. It seemed to stagger him, for my eyes never left his face as I struggled with the reins. His imagination thoroughly tricked him. Slowly, with an expression of horror, he backed away into his darkness, still covering me uncertainly with his revolver but not daring to fire again. Then to my ears there came another sound from up the valley—the ringing of the tonga horn.

**W**HEN Jim walked out of the barn, he walked into a determined young fist and some very unpleasant, choking language. But the return blow, though Sanford got ready for it as quickly as he could manage, didn't follow. Jim didn't go down; he only staggered a little, clenched his fists, and stood still.

"What do you mean, you—you?" Sanford spluttered.

"You've got your weight on the wrong foot, Sanford," said Jim. "If I got in quick with my left, where would you be? You want to think about that. Tain't, you know, when you go round punching people."

"Don't call me Sanford. And I want you to know that I'm here to protect my sister."

"All right, Mr. Bertram. Do you figure that you've protected her enough now, or do you want to hit me again?"

## EXECUTOR'S NOTICE OF FILING FINAL SETTLEMENT

State of Illinois, Lee County, ss: Estate of Gust Ponto, Deceased. Public notice is hereby given, that the undersigned, executor of the estate of Gust Ponto deceased, will attend before the County Court of Lee County, at the Court House in Dixon on the Fourth day of January 1920, next, for the purpose of making a final settlement of said estate, at which time and place I will ask for an order of distribution, and will also ask to be discharged. All persons interested are notified to attend. Dixon, Illinois, December 27, A. D. 1919. CHARLES BRADSHAW, Executor.

## To Whom It May Concern:

You are hereby notified that the commissioners of the Union Drainage District No. 1 of the Towns of Harmon and Marion, County of Lee and State of Illinois have filed their classification of lands benefited therein, and that they will on the seventh day of January, A. D. 1920 at the hour of ten o'clock A. M. meet at the Lake School House to hear any and all objections that may be made to the same, when and where you may appear and be heard, if you see fit. Dated this 26th day of December A. D. 1919. JOHN L. PORTER, Clerk of the said District.

## FINAL SPECIAL ASSESSMENT NOTICE

PUBLIC NOTICE is hereby given that the Board of Local Improvements of the City of Dixon, in the County of Lee and State of Illinois, caused to be filed in the County Court of said County of Lee, on the 25th day of September, A. D. 1919, a certificate showing the final cost of constructing cement concrete curbing, cement concrete driveways, and cement concrete roadways, and cement concrete roadways, pavement, catch basins and incidentals in Crawford Avenue, Dixon Avenue, Dement Avenue, East Third Street, East Fourth Street, and East Sixth Street in the City of Dixon, Illinois, under and in pursuance of City of Dixon Local Improvement Ordinance Number 187, Series of 1919, and the amount estimated by said Board to be required to meet the accruing interest on bonds and vouchers issued to anticipate the collection of the assessment for said work. Said certificate also shows that said work has been done and completed by the contractor doing the work in substantial conformity to the requirements of said ordinance and has been duly accepted by said Board. The final cost of said improvement and the amount estimated for interest as shown on said certificate are as follows: 1874.4 linear ft. of cement concrete curbing at sixty (60) cents per linear ft. \$1124.64; 5914 sq. yds. of cement concrete paving at thirty (30) cents per sq. yd. \$1774.20; total cost of improvement \$3348.84. Public Notice is further given that the Court has set said certificates and any objections that may be filed therein for hearing at 9 o'clock in forenoon on Thursday, the 22nd day of January, A. D. 1920 or as soon thereafter as the business of the Court will permit. Said hearing will be held in the County Court Room in the Court House in the City of Dixon, County of Lee and State of Illinois. Any person interested may file objections before the time set for hearing and appear and show cause why said petition shall not be taken as true. Dated this 5th day of January, A. D. 1920. Address Rae Chadwick, Adjutant, Dixon Post, The American Legion, Dixon, Ill.

The membership drive for the American Legion is now on and so far in the drive the enrollment has totaled 600,000. Illinois has enrolled 15,000. Posts have sprung up all over the country to the extent of 5,000.

The blank printed above is an authentic copy of the application for membership printed by the legion and may be clipped from the column, filled out and sent in with the dues for one year to Rae Chadwick, Adjutant, Dixon Post, Dixon, Illinois.

The American Legion is an organization for the protection and assistance of soldiers, sailors and marines who fought in the late war. It stands for citizenship, individual and national efficiency, and loyalty to every American principle. All men who served in army or navy between April 6, 1917, and Nov. 11, 1918, whether in this country or abroad, and whether as officers or privates, are entitled to membership in the legion, providing their discharges are not dishonorable. The organization is civilian, not military, and officers who enter as members leave all distinctions of rank behind them.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' product, Olive Tablets, the substitute for castor oil. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown room" had breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

That bitter heartburn, belching, food-repeating, indigestion, bloating after eating are caused by acid-stomach. But they are only first symptoms—danger signals to warn you of awful troubles if not stopped. Headache, biliousness, rheumatism, sciatica, that tired, listless feeling, lack of energy, dizziness, insomnia, even cancer and ulcers of the intestines and many other ailments are traceable to ACID-STOMACH.

Thousands—yes, millions—of people who ought to be well and strong are mere weaklings because of ACID-STOMACH. They really starve in the midst of plenty because they do not get enough strength and vitality from the food they eat.

Take EATONIC and give your stomach a chance to do its work right. Make it strong, cool, sweet and comfortable. EATONIC brings quick relief for heartburn, belching, indigestion and other stomach miseries. Improves digestion—helps you get full strength from your food. Thousands say EATONIC is the most wonderful stomach remedy in the world. Brought them relief when everything else failed.

Our best testimonial is what EATONIC will do for you. So get a big box of EATONIC today from your druggist. Use it five days—if you're not pleased, return it and get your money back.

## Eager for Information.

Robert was taking physiology and the subject interested him. One day he decided to tell his small brother some facts. Pointing to a vein in his hand, he said: "The stuff in that vein keeps the heart going; do you know what's in it?" "No," was brother's quick reply. "I don't know; what is it, oil or gas?"

## BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, yellow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured the will become real cranks on the subject shortly.

### Corn on Upgrade All Day Closed Firmer

By Associated Press Leased Wire  
Chicago, Jan. 5.—Stormy weather moving eastward from the Missouri river had a bullish influence today on the corn market. Higher quotations on hogs tended also to lift the value of corn. Besides, export inquiry for corn was again in evidence, although only for small amounts. Opening prices which ranged from ½¢ to 1½¢ higher, with May 1.32½ and July 1.31½, were followed by a moderate reaction, and then by an upturn higher than before.

Offerings of oats were readily absorbed and the market hardened with corn. After opening unchanged to ½¢ higher, with May 83½ to 83½¢, prices sagged somewhat, and then scored a general gain.

Provisions reflected the strength of hogs and corn. Lard led the advance. The fact that rye and wheat were at the best prices on the crop and that oats were nearly so, kept the corn market on the upgrade in the late dealings. Closing quotations were firm, 2½¢ to 3½¢ net higher, with May 1.34½ to 1.34½ and July 1.32½ to 1.33.

### MANY KILLED IN EARTHQUAKES IN MEXICO SATURDAY

By Associated Press Leased Wire

Mexico City, Jan. 5.—Ten states were shaken by the earthquake which on Saturday night destroyed at least two villages and caused many deaths in the state of Vera Cruz. These states stretch from the Isthmus of Tehuantepec in a northwesterly direction a distance of nearly 500 miles and from the Gulf of Mexico to the Pacific.

Reports received up to 11 o'clock last night indicated the center of the seismic convulsion was in the neighborhood of Mount Orizaba, a volcano situated about seventy miles west of Vera Cruz. It was in this neighborhood that the most serious damage was done.

In the suburbs of Orizaba, a city ten miles south of the volcano, the shock was very severe, many persons being reported killed beneath their wrecked houses.

While telegrams last night from the state of Vera Cruz stated that scores had perished, accurate estimates of the loss of life cannot be made.

## CONGRESS BACK AT WORK, FACES RECORD SESSION

By Associated Press Leased Wire

Washington, Jan. 5.—Congress met promptly at noon today after a two weeks' recess over the holidays with the treaty of Versailles still the foremost of the great array of subject with which the national lawmakers were expected to deal before adjournment, probably just before the presidential election next November.

In the senate today the Dickinson bill of Senator Sterling, republican, South Dakota, had the right of way.

Adjournment was not expected before fall and the only break in the long session that members can look forward to is the brief recess that will be taken coincident with the holding of the national party conventions during the summer.

Besides the treaties with Germany and with Austria international problems to be considered include the proposed alliance with France, the Panama canal settlement with Colombia, and treaties with Poland and possibly, Turkey.

Important domestic legislation includes the railroad reorganization bill and the coal, gas and phosphate land leasing bill; army reorganization, shipping legislation, control of undesirable aliens and on scores of other subjects.

AIRPLANE PASSED OVER DIXON TODAY

An airplane passed over Dixon this morning shortly after 10 o'clock flying westward and apparently following the Northwestern tracks. It is believed that this was one of the government planes which left Chicago this morning, blazing a trail from that city to Omaha to be adopted as a government aerial mail route.
